Aston Martin DB 2/4 Coupé MKI 3L

1955

Gallery

Very clean and presentable Aston Martin in dark red maroon.
Excellent mechanics and perfect road behaviour. No rattles at all!
Glorious typical sound of the "state of the art" twin overhead cam 6 cylinder through new stainless steel exhaust. Immaculate, recently totally retrimmed interior in beige with maroon carpets. New Michelin tyres on excellent chrome wire wheels. This DB 2/4 resided for a while in Germany and had to comply with the severe TUV test which it did without problems. After a short stay in Holland, now for sale from my Brussels workshop, which is specialised in these cars and maintains many of the Feltham Astons for quite a lot of very satisfied customers. Your chance to buy a well sorted DB 2/4 at a reasonable price.

Brand	Aston Martin
Model	DB 2/4 Coupé MKI 3L
Year	1955
Steering	Right (RHD)
