Ferrari Dino 246 GT

1973

Gallery

Regular visitors of my website have noticed that I always had a weak spot for Dino's... I am delighted to add on the long list another attractive example of these iconic Ferrari berlinetta's which went through my hands during my classic car career. It is an original French GT with the original period Pozzi sticker still clearly visible on the rear window (nice touch to have this sticker there !). The presentation in typical Ferrari Rosso, probably repainted in original colour once many years ago, is still nice but not absolutely perfect. The inside in original beige vinyl trim, is excellent. Structurally, this Dino is a super quality sportscar with excellent clean and undamaged chassis + aluminium undertray and a very nice looking engine bay. On the road, this stylish Dino GT is probably one of the best I have ever driven. Good power from the 2,4 L 6 cylinder engine, excellent gearbox and sensational general road behaviour typical for this mid engined berlinetta. Offered for sale in todays' buoyant classic car market at a very reasonable price, this Dino has certainly a beautiful future to expect (in you hands ?).

Brand	Ferrari
Model	Dino 246 GT
Year	1973
Steering	Left (LHD)
