Lancia Aurelia B24S Conv

1958

Gallery

Lancia Aurelia B24S Convertible 1958 LHD My weak spot for Lancia's and certainly so for the B24 Spider & Convertibile has brought me onto the path of this B24 Convertible which stood for years unattended in Italy. Chassis B24S 1602 was sold new in May 1958 in the very attractive colour combination of Grigio with Pelle Rossa (Grey body colour with red leather interior). It is one of the last produced B24 Convertible models recognizable by the recessed additional fog-lights, which, I think, improves the looks considerably. This information together with the fact that this Lancia B24 is in excellent sound structural condition makes my hands, and probably also yours, itch to start restoring this Lancia. The more, this B24 Convertible comes with the factory Pininfarina hard-top.

Brand	Lancia
Model	Aurelia B24S Conv
Year	1958
