Lancia Aurelia B24S Convertibile

1957

Gallery

I was very pleased to welcome once again my ex Aurelia B24 Convertibile (chassis 1401 - engine 1532) back into our showroom. As one can see from the photographs, this 1957 LHD Lancia B24 Convertibile is not only very attractive but also in excellent condition inside-out. We know this B24 Convertibile for quite some time and she has been very well taken care of by the 3 previous owners who happen to be very good customers of ours, each of them maniac-style classic car collectors. Just before the last Belgian owner bought this Lancia from me in 2012, a specialist Italian classic car workshop executed a complete overhaul of the engine and the mechanics on this Lancia Aurelia. Many detailed photographs show clearly the excellent quality of this work. Both B24 variants, the sexy America Spider (only 240 produced) and the stylish Convertibile (only 521 produced) are delicious open Aurelia's to own and drive. The Convertibile, with a very elegant but discreet appearance, has the advantage to be easier to use on a regular basis. The driver and passenger seats + cabin upholstery in slightly patinated dark red leather are exceptionally comfortable. The convertible hood, in double duck, & mechanism are very easy to use and offer very good weather protection. Even better, this B24 Convertibile comes also with a factory hard-top. The ideal classic car to take for long trips abroad whatever the season! The famous V6 2,5 liter engine provides in all circumstances ample smooth power and torque for relaxed driving. The transaxle system (engine in the front - gearbox and differential in the rear) guarantee a perfect road behaviour. Truly an exceptional tourer in the 50-ies! This Lancia comes with Belgian registration documents, certificate of the Aurelia Registro and the important ASI historic passport (ASI certificate N° A5480). You should be interested!

Brand	Lancia
Model	Aurelia B24S Convertibile
Year	1957
Steering	Left (LHD)
