Lancia Flaminia GTL 2,8 3C Touring 2+2 Coupé 1965 LHD It seems to me as if a Flaminia virus is going around these days amongst classic Lancia enthusiasts. I only sold last week another identical model to a customer from Holland (826 140 001239). By the time I went to inspect this Flaminia GTL (826 140 001249) in the south of Belgium a Swiss customer had turned-up and bought this stylish Flaminia the same day! My Flaminia Pininfarina Coupé which I did use from time to time as an everyday classic also found a new home a couple of days ago with a collector of this specific model in Luxembourg. Well, being bitten by this virus, seems a sweat disease to me... Because these Flaminia's are absolutely great classic cars and, in my opinion, somehow undervalued on the actual classic car market. So, lets enjoy them!
