Triumph Stag

1975

Gallery

Triumph Stag 1975 LHD - manual + overdrive This is an original Belgian Triumph Stag, having covered only 101.000 Km from new and which is well known in the Belgian classic car scene. The last owner, having worked his whole career in the Belgian automobile industry (British Leyland and later Jaguar) had this Stag more than 30 years and campaigned this Triumph very enthusiastically in numerous classic car rallies, amongst which at least 5 times the Route National 7 (Paris St-Raphaël and back). The most convincing proof that a Stag can be a very reliable classic car! Needless to say that this Triumph Stag was and still is in excellent well kept condition. With the big experience built-up during his career, the previous owner knew exactly where to go to have his Triumph Stag properly maintained by a specialist of this model. Today this classic top-range Triumph sports car, designed by Michelotti, still looks very elegant in this original Russet Brown with original beige interior. This Triumph Stag comes with a hard and soft top. Brand new correct alloy wheels and new Vredestein tyres were fitted recently. The old ones come with the car as well. Comes with Belgian registration documents with comment free Belgian Contra'le Technique as a normal car (not as an oldtimer!) + original owners hand-book in French + FIA car pass.
