Alfa Romeo 1900 C Sprint Pininfarina Coupé 1953 LHD Chassis N°: AR 1900 C 01645 Engine N°: AR 1308 00966 Of this very elegant model only 100 examples were produced, making it one of the most sought-after Alfa Romeo classics. Initially sold new to Switzerland in the beautiful colour of celeste betulla, the full history of this 1900 is known, residing all her life in the hands of Swiss and German collectors. The last German owner decided to treat his Pininfarina Coupé to a full "nut and bolt" restoration supervised by the registrar of the Italian Alfa Romeo 1900 Club. No corners were cut and the end-result, illustrated by these photographs, is a concours-condition, breathtaking beautiful, Alfa Romeo 1900 C Sprint PF Coupé. No wonder that the first concours entered (Schloss Dyck in 2011) was also immediately won by this elegant Alfa (1-st prize Italian GT cars). Not only the general presentation is just TOP, also the many very well cared-for details (period radio, Borrani wire-wheels, period twin carburettor kit, etc. ...) put this Alfa Romeo in a very select category of sublime classics. Very well documented (amongst which a certification letter from Alfa Romeo Automobilmismo Storico Centro Documentazione) and with an impressive restoration file containing hundreds of photographs and a dazzling amount of invoices, this voluminous file just answers all the questions one could ask about the history, originality and restoration. I didn't mention anything about driving this 1900 on the road...? Just come and join me for a test-drive. You will be totally convinced after only 100 meters! Top quality for money!

Marque	Alfa Romeo
Modèle	1900 C Sprint Pininfarina
Année de construction	1953
