Austin Healey 100/4 M BN2 Factory-M "Le Mans"

1955

Galerie

This original factory-M-Le Mans Healey, with Heritage certificate to prove so, was totally restored by our specialised workshop 8 years ago. The car is a continental (speedo in Km) one family owned 100/4 which was initially sold to the present owners' uncle in Switzerland. After our nut and bolt restoration, documented with lots of photographs, this Healey was hardly used. We booked the car every year into our workshop for its annual MOT (technical control test) which the Healey passed each year as a normal car at the first go. Finished in the original colour combination of black over dark red with full leather upholstery and carpets also in red, the appearance of this rare Healey is just smashing. A discerning Austin Healey collector will understand that this "factory M" is a one in a lifetime opportunity at 55.000 euro.

Marque	Austin Healey
Modèle	100/4 M BN2 Factory-M "Le Mans"
Année de construction	1955
Volant	Gauche (LHD)
