Jaguar XK 150 DHC 3.4 L

1958

Galerie

Well known car to us, because we maintained her for her previous owner for the last 10 years. This XK passed the Belgian "Technical Control" every year as a modern car, as such that the owner could use his pride and joy without limitations. This means that structurally, bodily, as well as mechanically, this XK150 is in pristine condition. Extremely nice presentation in British racing green (completely repainted in our specialised workshop in 1994) with black leather interior showing some lovely patina and excellent black double duck hood. Good power from mighty 3.4 liter XK engine, showing healthy oil pressure even when hot. Easy shifting gearbox and very responsive overdrive. A well above average XK150 offered now for sale at a fair 58.000 euro

Marque	Jaguar
Modèle	XK 150 DHC 3.4 L
Année de construction	1958
Volant	Gauche (LHD)
