Lancia B50 Pininfarina Cabriolet

1951

Galerie

Admire these 2 beauties of technology ! The ship lift in Strey (South of Belgium) and the stylish Lancia B50 Pininfarina convertible. Very few B50 Pininfarina convertibles were produced (484 B50 chassis). The recent sales results at auction proved the elegant Pininfarina convertible is highly appreciated amongst classic car connoisseurs. Through contacts with my Belgian Lancia friends, it seems only 5-6 of such models were known over here. The black B50 pictured, is not for sale but must illustrate you how the other B50 I found, and which needs her restoration to be completed, could look like in the end. The complete body structure has been repaired (not much welding work was needed) and the 1754 cc V6 engine has been completely overhauled. All parts are there but the whole assemblation, painting, trimming, chroming, electricity, etc... needs to be done. Available in its present condition at only 40.000 euro, I am convinced this unusual Lancia project is worth considering. My specialised classic car restoration workshop could execute or assist you with the finalisation of this restoration.

Marque	Lancia
Modèle	B50 Pininfarina Cabriolet
Année de construction	1951
Volant	Droite (RHD)
