Jaguar E-type Series I 4.2 Coupé

1964

Verkocht

Everybody agrees the Jaguar SI Coupé is a styling icon.

Too often, the many times published image of the gun metal grey 9600HP registered first E-type at the Geneva Parc des Eaux-Vives, has resulted in the choice of gun metal grey for an E-type.

Don't you agree that this Opalescent Silver Blue colour suits the Jaguar E-type marvellously aswell ?

THE DOCUMENTATION FILE OF THIS JAGUAR E-TYPE SI 4.2 COUPE CONTAINS THE JAGUAR HERTIAGE CERTIFICATE WHICH CONFIRMS THE MATCHING NUMBERS AND COLOURS OF THIS INITIALLY TO THE USA EXPORTED JAGUAR.

The dry Californian climate made sure this E-type could age in ideal conditions so that in 2017 a very sound Jaguar made the return trip to Europe where a classic car specialist from the South of France brought this Jaguar back to her initial sparkling appearance.

We are happy to welcome this beauty in our classic car showroom and are convinced one of our customers will soon fall in love with this shining Opalescent Silver Blue E-type Coupé.
